Text submission. The source's 'Skinned side of the salmon' was a fragment — interpreted as placing the fillet skinned-side up for the scales. All quantities except the 5 garlic cloves were unspecified in the source. Prep reasoning: 5 base + handle fillet 2 + smear mustard 1 + slice zucchini 3 + arrange scales 8 + chop dill 3 + garlic 5 cloves 2 + measure oil/salt/pepper 2 + smear herb mix 2 = 28 → 30. Servings default 4 for a main-course fish recipe (salmon quantity not stated). — Text submission
